EQUIPMENT RENTALS

Ocean Cloud General Contracting offers a robust selection of rental equipment tailored to support a multitude of industries requiring heavy lifting and loading capabilities. Clients can access a varied fleet that includes cranes, forklifts, telehandlers, boom trucks, and various types of loaders – all vital tools for operations ranging from construction sites to warehousing. These high-performance machines are maintained to exacting standards, ensuring they meet the stringent requirements of any task at hand.

In addition to heavy machinery, Ocean Cloud provides a suite of power, light, and utility equipment to maintain productivity and efficiency on-site. This range covers needs for power generation, such as generators and air compressors, as well as illumination and maintenance tools like tower lights and welding machines. To accommodate transportation and logistics needs, the company also offers an array of vehicles and trailers, from drum trucks and pickups to a variety of trucks and specialized transport solutions like low beds and flatbed trailers, all ready to be deployed as per project specifications.

HEAVY LIFTING & LOADING EQUIPMENT

FORKLIFTS

Ocean Cloud provides versatile forklift rentals in Saudi Arabia, ideal for material handling in warehousing, construction, and industrial applications, featuring robust design, lifting capabilities, and adaptability to ensure efficient load transport and operational productivity.

CRANES

Cranes are towering, powerful lifting machines used in construction, manufacturing, and shipyards to hoist and move heavy materials. With various types like tower, mobile, telescopic, and crawler cranes, they are essential for tasks requiring vertical and horizontal transportation over obstacles.

EXCAVATOR LOADERS

Ocean Cloud offers excavator loader rental services in Saudi Arabia, providing high-performance, durable machinery ideal for construction, mining, and excavation projects. These are equipped to handle demanding tasks with precision and efficiency.

BACKHOE LOADERS

Backhoe loaders are versatile machines combining a front loader bucket and rear excavator arm, perfect for construction, utility work, and small demolition tasks, enhancing job site efficiency with exceptional digging and material handling capabilities.

HEAVY LIFTING & LOADING EQUIPMENT

TELEHANDLERS

Ocean Cloud provides advanced telehandlers with exceptional reach and capacity, designed for material handling in construction, agriculture, and industry, ensuring versatility and productivity with multiple attachment options.

BOOM TRUCKS

Ocean Cloud's fleet features robust boom trucks with significant reach and lifting capabilities, perfect for utilities, construction, and transporting heavy materials, offering precision placement and operational efficiency.

DRUM TRUCKS

Drum trucks are hand trucks designed for moving industrial drums. They are equipped with specialized features such as curved frames and securing mechanisms to handle the size and weight of standard 55-gallon drums safely and efficiently.

SKID STEER LOADER

Ocean Cloud supplies skid steer loaders for rental in Saudi Arabia, offering compact, maneuverable machinery ideal for construction, landscaping, and material handling, with various attachments suitable for diverse job site requirements.

POWER & LIGHTING SOLUTIONS

TOWER LIGHTS

Ocean Cloud's diesel-light towers are designed to ensure bright, reliable illumination for expansive work areas, such as construction sites and outdoor events, featuring easy mobility and sturdy construction for all-weather operation.

GENERATORS

Ocean Cloud offers a range of high-capacity, diesel-fueled generators for uninterrupted power supply, perfect for construction sites, outdoor events, and emergency backup, with robust design for reliable performance in various environments.

AIR COMPRESSORS

Deployable high-performance diesel air compressors, offering 100-900 cfm and pressures of 6-24 bar, cater to a range of construction and industrial operations with adjustable airflow needs.

WELDING MACHINES

Ocean Cloud presents robust, diesel-powered welding machines with up to 500 Amps output, ensuring reliable and precision welding for demanding construction projects and industrial applications in outdoor or remote locations with their ease of portability.

TRANSPORTATION & SUPPORT

DYNA TRUCK 3-20 TON

Ocean Cloud's fleet includes versatile Dyna Trucks, ranging from 3 to 20 tons, designed for efficient transport of goods and materials in logistics, construction, and industrial sectors, with powerful performance and durability.

TRAILER FLAT/ LOW BEDS

Based in Saudi Arabia, Ocean Cloud has the capacity to serve across the region and prides itself on a track record of reliability and excellence. The company ensures rapid resource mobilization and provides 24/7 support, including advanced GPS monitoring for all rented equipment.

BUS & PICK-UPS

Ocean Cloud General Contracting provides rental services for buses and pickups across Saudi Arabia, catering to diverse transportation needs with a reliable fleet and customer-focused solutions.

DEWATERING PUMPS

Dewatering pumps are available in a variety of sizes and capacities, are engineered for optimal water removal in construction, mining, and flood relief operations, ensuring swift and efficient site preparation or recovery.
